Retained Services : Dialling up or down as you need us.

Ideal for small to medium businesses who can't justify the need of an employed HRD/HRBP but do want a people professional on the team. Acting at a strategic level, for example helping to shape your culture and values, advising on leadership and engagement and designing performance management frameworks are examples of how we can help. Admin support also available.

You decide how much support you need and how often. From a day a quarter to a day a week. We work to your needs offering flexibility, certainty and confidence.

Often referred to as honorary team members, we are by your side, understanding your business, working with you and your people, to help you achieve your goals.

Not just a consultancy. Facilitating working groups, writing policies, presenting at meetings or updating holidays, we do what's needed to get the job done.
